EXTRA SUPPORT

Need a little extra support? We may be able to help.

We know that sometimes families need a little extra support. That's why the School Breakfast Clubs Program can offer more than just breakfast. Alongside breakfast club, we can provide:

- Home Food Packs for students and families who need extra food support
- Lunches and snacks for students during the school day
- Extra food support during school holidays

What are home food packs?

Home food packs contain a variety of nutritious food items that can help make meals and snacks at home a little easier. Depending on your family's needs, packs may include items such as:

- Cereal and long-life milk
- Soups, snacks & easy meal options
- Fresh fruit & bread (where available)

How can I access support?

If you think your family could benefit from food support, please reach out to the wellbeing team, breakfast club coordinator, your child's teacher, or another trusted staff member. School staff are here to help connect you with available support.
