SCHOOL BREAKFAST CLUBS PROGRAM

SECOND BREAD ADDED

To help reduce the risk of bread supply disruptions and ensure a more consistent supply for schools, we are introducing a second bread product to the School Breakfast Clubs Program menu.

Going forward, schools may receive either of the approved bread products below, and the product supplied may vary from order to order depending on stock availability.

Bread products details as at October 2026:

Tip Top 'The One' Soft Wholemeal Loaf
700g
Contains: Wheat, Gluten, Soy
May contain: Other Cereals (Barley, Oats, Rye), Sesame.

Mighty Soft Wholemeal Sandwich Loaf
650g
Contains: Wheat, Gluten, Soy
May contain: Sesame.

What this means for your school

- Schools may receive either bread product when placing orders.
- The bread supplied may change between deliveries.
- This change will help improve continuity of supply and minimise the impact of supplier shortages.

Important reminder: always check product labels

Allergen statuses, ingredient lists and product information of School Breakfast Clubs Program menu items may change over time. Please ensure that all staff and volunteers are regularly reading and reviewing all new and existing product labels carefully.

Product labels are the most accurate and up-to-date source of ingredient and allergen information and should always be checked before use.

If you have any questions, please contact the School Breakfast Clubs Program team.
Thank you for your ongoing support in helping us provide breakfast to students across Victoria.
